NEC LCD 19" Desktop Display

Maximise your budget with the 19" NEC AS193i-BK, an LED-backlit IPS LCD desktop monitor that enhances desktop computing with eco-friendly benefits. The latest addition to the NEC Series, this value-driven model touts features such as an IPS panel for outstanding image performance, ECO Mode™ to extend the life of the display, tilt adjustability and Intelligent Power Manager. The AS193i-BK is mercury-free, consumes little power and generates very little heat. Additional benefits include a carbon footprint meter and Rapid Response technology, both of which make this model ideal for classrooms and small-to-medium-sized business environments.

- IPS active matrix LCD provides superior screen performance, including wide viewing angles and lifelike flesh tones
- LED backlight technology provides for industry-leading low power consumption and less hazardous materials
- Ambix® dual-input technology allows for digital/analogue compatibility with upgraded video cards and software as well as connection to two systems
- Rapid Response™ technology delivers virtually uninterrupted, undistorted viewing of high-speed, full-motion video
- ECO Mode™ function helps save power, reduce heat and extend the life of the display by allowing you to dim the backlight

- Intelligent Power Manager (IPM) system and off timer provide innovative power-saving methods and reduce CO2 emissions by shifting to a lower power consumption level or automatically powering down when the monitor is on but not in use
- Carbon footprint meter helps track and calculate the reduction of green gas emissions

Compact packaging helps reduce paper usage, shipping costs and waste
